This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

FOREWORD.

This catalogue embodies the results of purchases made during the last four years, and as a whole contains an unusually large proportion of desirable "nuggets" that are seldom offered for sale. All but a very small percentage of these books have come to me through private purchase and have not passed through the auction room.

I have given it the general title of "Source Books on American History" for the reason that nearly every item contains first-hand historical data of general, local or personal interest — the authors have given facts, rather than expressed their own deductions from the narratives of others.

The story of the increasing rarity of Americana has been often insistently proclaimed — and there is much truth in it. But desirable things are constantly turning up and can still be secured, at prices that are not prohibitive, by the careful buyer who watches all the channels.

I have always stood for and believe in conservative values, and I must be convinced of both the merit and rarity of a book before either giving or asking an advance in price.

Good Americana, well bought, always has and always will increase in value. And I predict that we shall see a far larger number of book buyers, whom neither "rehash" nor reprints will satisfy, interested in the origin of the things that have influenced our history.

While this catalogue is roughly subdivided into subjects, a careful reading of the whole is recommended.

All lots are guaranteed perfect and in good condition unless otherwise described, and any item may be returned that proves on inspection to be unsatisfactory — the best asset being a satisfied customer.

Bancroft was only 23 years old when this volume was published. Second thought induced him to suppress it, and it is said that, with the exception of a few early copies sent out, the balance was burned at the house of Prescott. Appleton copy (without A. L. S.) sold for $38.00.

Apparently a collection of the numbers of the previous edition of 1741 (the last signature having "No. XVIII" printed in the corner), with a new title-page giving "Mr. Bramwich" as the author. It was evidently intended as a complete history of American discovery, but ended with the 18th number, the Voyage of Grijalva in 1518 and discovery of Mexico. At the end in this edition is appended in smaller type the account of Admiral Vernon's victory.

38 **Brissot de Warville,** J. B. The Commerce of America with Europe comparatively stated and explained, and showing the Importance of the American Revolution to the interests of France. *Portrait by Scoles.* 12mo, half roan, pp. 263. New York, *Swords,* 1795. $6.50

Poor copy and lacks a leaf. Philadelphia, n. d. (1841). $2.00

43 **Bulloch,** James D. The Secret Service of the Confederate States in Europe; or, How the Confederate Cruisers were Equipped. 2 vols., 8vo, cloth. New York, 1884. $6.00

Easily first in authority upon its subject. Capt. Bullock was the naval representative of the Confederacy in Europe and its authoritative agent in building and fitting out the Alabama and other cruisers. Whilst a devoted Confederate officer, his historical purpose is candidly sincere, his store of original knowledge is unequalled, and he has intelligently used collateral sources of information, diplomatic and other.

The author was the son of the famous Sir John Hawkins and like him greatly distinguished himself at the defeat of the Spanish Armada. His next employment was in this Voyage of Discovery to the South Seas, and while coasting up the western side of South America he encountered a Spanish squadron of superior strength, to which, after making a brave resistance and receiving some severe wounds, he was obliged to yield. He was taken prisoner, and did not regain his liberty for many years, which accounts for the lapse of time between the date of his Voyage (1593) and this publication of his experiences. He died in 1622, either just before or after the publication of his book. The volume contains some interesting particulars concerning the Indians of Florida and the Caribean Islands, and parts of South America.

Prayer Book. The First Prayer Book Printed in the U. S. The Book of Common Prayer and Administration of the Sacraments, & other Rites & Ceremonies as revised and proposed to the use of the Protestant Episcopal Church. Phila., 1786; The Same. Reprinted, London, 1789; The Book of Common Prayer & Administration of the Sacrament & other Rites and Ceremonies of the Church according to the use of the Protestant Episcopal Church in the U. S. of America, together with the Psalter, or Psalms of David. Phila., 1790. Together 3 vols., uniformly bound in new panelled calf gilt, gilt edges. Phila., 1786-90. $100.00

The "Proposed Prayer Book," the London reprint of the same, and the "Standard Prayer Book," the first and third being the first Prayer Books printed in the U. S. after the attainment of Independence with the designation "The Protestant Episcopal Church."

A result of the successful Revolution was the necessity of changing the English Prayer Book with its suggestions of monarchical government. A committee was accordingly called, of which Bishop Wm. White, Bishop Provoost, Rev. Wm. Smith, Richard Peters and several others were members, and drew up this "Proposed Prayer Book." It was not favorably received, some pastors objected to certain changes, several States only partially accepted it, while others, including New York and New Jersey, rejected it entirely. Bishop Seabury event went so far as to say it "degraded the church." It soon went into obscurity, was forgotten and became rare. Bishop W. Stevens Perry writing of it that "a rarer book connected with the American Church can hardly be named." Three years later the reprint was made in London as a curiosity, only fifty copies, it is said, having been issued. The volume is undoubtedly rare, whatever number may have been printed. In 1789 another committee was appointed, this time under the presidency of Bishop Seabury who had so fiercely attacked the "Proposed" version, and a more satisfactory revision was made, that has practically stood until the present time. The volume was issued in 1790, Francis Hopkinson with one or two others superintending its progress through the press. The Signer of the Declaration had possibly some hand in the production of the "Proposed" Prayer Book, as one of the tunes in the eight pages of engraved music at the end of that volume is by him. The copy of the "Standard" version in this set is of the first issue, reading "End of the Prayer Book" on p. 221 of the Hymns, instead of merely "The End." A complete set of three is extremely rare.

Held in Philadelphia from September 27th to October 7th, 1785. 12mo, new full

panelled calf, gilt, full gilt edges. Phila., 1786. $50.00

After the Revolution it was found expedient to make certain alterations in the Book of Common Prayer, that it might be adapted to the conditions of a Republic. It was, however, rejected by the General Convention of 1789 which accounts for its great rarity. This copy has the Psalms of David, Hymns and six pages of music (some have eight).

The English edition of the famous "Proposed Book of Common Prayer." Wright states that this English edition consisted of but fifty copies; while unquestionably it was much smaller than the American edition, this statement is open to question. Much of the opposition to the adoption of the "Proposed Book" came from the English prelates, and this edition was evidently a part of the movement against its adoption. It was finally rejected in the summer of 1789.

After such acknowledgment all Acts which had been found grevious were to be suspended, such as the Acts for blocking the Harbour of Boston and altering the Charter and Government of Massachusetts.

A reprint of a series of rare historical sermons with biographical sketches.

399½ **Morris,** Margaret. Private Journal kept during a portion of the Revolutionary War. (Edited by John J. Smith, Jr.) 4to, cloth, uncut, pp. 36. New York, 1865. $10.00

Fifty copies reprinted from the edition of 1836, by John G. Shea.

Marion, Genl. Francis. A Sketch of the Life of Brig.-Genl. Francis Marion, and a History of his Brigade, from its Rise in 1780, until Disbanded in December, 1782, with Descriptions of Characters and Scenes not heretofore published. Containing Appendix of Letters principally from Genl. Greene to Genl. Marion, by William Dobein James. 8vo, boards, uncut. Charleston, *Gould & Riley,* 1821. $100.00

A very fine copy of this scarce book, and excessively rare in uncut condition. This has always been one of the rarest of all Revolutionary books. This is the cleanest copy I have ever seen, as, owing to the softness of the paper, it is always badly foxed; the above is a little brown from age, but I believe it to be the finest copy in existence.

Moody, Lieut. James. Narrative of his exertions and sufferings in the cause of Government, since the year 1776; authenticated by proper certificates. Second edition. London, 1783. Full calf. Accompanied by an extremely rare aquatint engraving representing an incident in the career of Lieut. Moody as described in the following lettering engraved below the picture: "Lieut. Moody. This officer during the American War distinguished himself as one of the most gallant Partizans in the British Service, and made himself the terror of the Rebels. In some of these exploits his adventures and escapes were wonderful. Returning from an excursion in May 1780, he heard that a soldier of General Burgoyne's Army was confined in the goal of Sussex County, condemned for an offence of which he was not guilty, and Moody determined to release him. Accordingly with six men he beset the goal at night, made his way through a casement, and compelled the goaler to conduct him to the prisoner, whom he found in a quiet sleep, tho' sentenced to die the next morning. Moody aroused him, but his terror was so great that he was dragged out, expecting nothing but instant execution. Although closely pursued for several days, Moody at length conducted his party and the prisoner to a place of safety. See Lieut. Moody's Narrative." Drawn and engraved by Robert Pollard. Aquatinta by F. Jukes. Size 21½ by 17½, in excellent condition in cloth portfolio. London, 1785. $75.00

Both the narrative and print are extremely scarce. Moody's New Jersey farmer, with every desire to remain neutral, was so much harassed by mobs, associations and committees that, driven into the British lines, he became an active and, in many instances, successful partisan against his countrymen. From 1776 to 1782 he was a spy, a ranger and a scout in the service of the British, being for a portion of the time attached to General Skinner's New Jersey Tory Brigade. This second edition is by far the best, as it contains an Appendix of documents not issued with the first.

It is one of the most interesting of the Revolutionary narratives from personal observation by a leading participant. It has never been reprinted and is only accessible in the original edition which was printed by the author.

Sargent, Winthrop, Editor. The Loyalist Poetry of the Revolution. Small, 4to, half roan, uncut. Phila., 1857. $20.00

Only 99 copies printed for subscribers. Contains the extra leaf.

It is well known that during our Revolutionary War a very large part, if not an actual majority, of the American people remained more or less attached to the cause of the Crown. And, considering how much of the education and intelligence of the community was included in their ranks, it will not be surprising to find that the Loyalists of that day were far from remiss in their efforts to vindicate their own conduct or to attack that of their opponents. Mr. Sargent, in this volume, rescued from oblivion much material that would have otherwise been lost.

Broadside. Curious and rare large folio sheet containing three popular songs; "Victory on Lake Champlain," "Commodore Macdonough's Victory," and "The Battle of Niagara." Surrounding the songs are 23 small woodcuts with mottoes, and in addition are a larger woodcut of the Battle of New Orleans, and cut of the "Chain of Union," and extracts from letters describing the Battle of New Orleans. Published at Windsor, Vt. For the Flying Booksellers, Jan. 1, 1816. 20¼ x 17 in. $45.00

A rare and amusing broadside printed for hanging on cottage walls or public inns. The smaller woodcuts are evidently drawn from various sources, and while some, with a slight stretch of the imagination, may be considered pertinent, others are decidedly the opposite. One cut which apparently must have been of Napoleon on a camel in the Egyptian Desert, has the following inscription: "Lieutenant Col. Bayenes, To keep up shins and sides, Upon a camel mounts, And off in shame he rides;" a cut of two men fighting a duel that seems to have come from a New England Primer has the legend: "A Vermonter attacking the veterans of Lord Wellington while crossing the fatal river;" a woodcut of Time with a scythe stands for the God of War, and so on; two woodcuts are evidently from some rare early illustrated edition of Robinson Crusoe. One song, "The Battle of Niagara," is to the metre of "Campbell's Battle of Hohenlinden."

The author was especially qualified to act as historian of the thrilling experiences he describes. His account of them is graphic and comparatively free from the mannerisms and prejudices which mar the writings of some of his contemporaries. Such volumes are the foundation of our knowledge of these stirring times, and their value, both to the student and the amateur, must continually increase.

London, 1859. $15.00

Very scarce. The author, after four years' study of art in Europe, returned to Canada filled with the determination to fulfill an early design of executing a series of drawings of scenes in Indian life. To accomplish this he traversed, almost alone, the territories of the Red River Settlement, the Valley of the Saskatchewan; across the Rocky Mountains, down the Columbia River, the shores of Puget Sound and Vancouver's Island. The book is a transcript of his daily journal, thrown into the narrative form; and the beautiful engravings are copies of the labors of his pencil. It is an interesting collection of the incidents of life and travel among the Indian tribes inhabiting the regions over which he passed.

As early as 1824 the practice was begun of taking portraits of the principal Indians who came to Washington and depositing them in the War Department. Under the management of Col. McKenny, Superintendent of Indian Affairs, the number rapidly increased till a very interesting gallery was formed. They were chiefly painted by Mr. King, an artist of high repute, who was remarkably successful in transferring to his canvas the strong lineaments of the Indian countenance. Col. McKenny conceived the plan of making this rare and curious collection more valuable to the world by publishing a series of engraved portraits exactly copied and colored from these paintings. With each portrait is connected a biographical sketch of the individual whom it is intended to represent, interspersed with anecdotes and narrations. The work contains also a historical account of the various Indian tribes within the borders of the United States.

It had served Charlevoix in the preparation of his great history of New France; as it had long before its governors La Barre, Denonville and Frontenac in determining their policy towards the various tribes of Indian allies and foes it describes. Its author was for twenty years a simple fur trader, visiting and residing for long periods with the savages he had made his friends. For nearly twenty years subsequently he was the official interpreter of the government.

Richardson, Major. Wacousta; or, the Prophecy: A Tale of the Canadas. 3 vols., 12mo, cloth (margins of a few pages in vol. 2 slightly damaged by a nail). London, 1832. $10.00

Very scarce. A remarkable study of life among the Canadian Indians in the early days.

The story is founded upon incidents connected with the attempt on Fort Detroit by the famous Indian chief, Pontiac, in the year 1736. The conspiracy of this wily and treacherous warrior to possess himself of the various posts held by the English in the West, and which was foiled of complete success only by the commandant at Detroit being forewarned, it is said, by a beautiful Indian girl for whom an officer of the garrison had formed an attachment, gives the groundwork for a story replete with romantic and thrilling situations, vivid descriptive passages, and a rapidity of action that carries the reader along almost breathlessly to the close. Many competent critics have declared "Wacousta" to be the greatest Canadian novel.

Sanders, Daniel C. History of the Indian Wars with the First Settlers of the United States, particularly in New England. Written in Vermont. 16mo, original calf, with label. Montpelier, Vt., 1812. $100.00

The best copy I have ever seen of this book, which when found is usually in a more or less mutilated condition.

"Published anonymously, without preface, it was known to but few that the author was the Rev. Daniel Clark Sanders, President of the University of Vermont. Immediately after its appearance some person . . . published an acrimonious critique upon the book. . . . Such was the effect of the article upon Mr. Sanders that the work was suppressed. . . . So nearly complete was the destruction of the volume that it was forgotten by those who professed to know most of its author, his biographers, and neither Thompson, Williams or Hemenway mention Sanders' authorship of the Indian Wars."—*Field.*

This is the first systematic work published with descriptions of the Mound-builders. Recent works bearing on this subject have borrowed largely from its pages. Its chief features are, a scientific arrangement, simplicity and directness of statement, with no attempt at mere speculation or theory.

"In this singular publication, which is a close translation of the Hebrew, Dr. Mather has not only disregarded the modern practice of breaking the lines, whether rhymed or not, but he has run out (to use a printer's phrase) the whole matter; so that while each psalm looks exactly like prose, and may be read as such, it is, in fact, modulated so that it may be sung as lyric verse. The learned Doctor says that in the 'twice seven versions' which he has seen, the authors 'put in as large an Heap of poor Things, which, are intirely their own,— meerly for the sake of preserving the Click of the Rhyme; Which after all is of small consequence unto a Generous Poem; and of none at all unto the Melody of Singing.'"

Florida. The Case of Mr. John Gordon. With Respect to the Title to certain Lands in East Florida, Purchased of his Catholic Majesty's Subjects by Him and Mr. Jesse Fish, for Themselves and Others of His Britannick Majesty's Subjects. 4to, half morocco. London, Printed in the Year 1772. $75.00

Privately printed for the use of the persons interested, and very rare. We have not been able to find the book recorded in the Rice, Barlow, Brinley, Menzies, Ives or other sale catalogues consulted.

It comprised 32 pages, followed by an Appendix of 21 unnumbered leaves and contains an engraved plan of the property in question.

John Gordon, a Carolina merchant, after the Treaty of Peace in 1763, in which Florida was ceded to the English, bought several large tracts of land on the east coast from the original Spanish owners, with the idea that when the British took possession values would increase. After the country got under control of the British there was great difficulty in getting his title recognized. This long document relates to this matter, but includes, incidentally, considerable information relating to the country. The tract of land in question was known as "Palica" and was on the east coast south of St. Augustine, opposite Anastasia Island and Matanzas Inlet.

Georgia. A State of the Province of Georgia, attested upon Oath in the Court of Savannah, Nov. 10, 1740. 8vo, half morocco, pp. 32. London, 1742. $15.00

From the Chas. Jones, Jr., collection, and contains a note in his handwriting to the effect that Patrick Graham and Col. Wm. Stevens were the authors of this tract, also that it was printed by order of the Trustees and distributed for the purpose of counteracting the pernicious influence exerted by the scandalous publication of Tailfer and others, entitled "Narrative of the Colony of Georgia," which was published in 1741.

Georgia. A Brief Account of the Causes that have retarded the Progress of the Colony of Georgia, in America; attested upon Oath, being a proper Contrast to "A State of Province of Georgia, attested upon Oath;" and some other Misrepresentations on the same Subject. 12mo, half morocco, gilt top, pp. 101. London, 1743. $20.00

The author of this tract appears to have been Mr. Thomas Stephens, son of Col. William Stephens, who had been commissioned by the malcontents to petition for a redress of grievances, the principal grievance being the prohibition of Negro Slavery. It is particularly interesting from the large number of names it gives as signers to the petitions, etc.

A very fine copy of the extremely rare first published edition. The map was made by Jefferson himself, and he states in a letter to Dr. Edward Bancroft, that "I answer for the exactness, and I have supplied some new places. By the death of Mr. Williams, a copy of my Notes on Virginia (the private edition) got into the hands of a bookseller who was about publishing a very abominable translation of them, when the Abbe Morellet heard of it, and diverted him from it by undertaking to translate it for him. They will thus appear in French in spite of my precautions. The Abbe engaged me to make a map," etc.

A work of the highest merit and greatest importance on the early history of the great West. The author has embodied in it the results of years of painstaking research, going into the whole subject with a thoroughness and ability rarely met with in these days. Every known printed authority has been consulted and digested, and in addition a mass of original manuscripts hitherto inaccessible has been placed at Capt. Chittenden's disposal.

1521 **Chittenden,** Hiram M. History of Early Steamboat Navigation on the Missouri River. The Life and Adventures of Joseph La Barge, Pioneer Navigator and Indian Trader. For fifty years identified with the commerce of the Missouri Valley. *Map, portraits and illustrations.* 2 vols. 8vo, cloth. (Edition limited to 950 copies.) $6.00

A valuable and interesting original work by the author of "The American Fur Trade of the Far West." Very few people now have any conception of the part the steamboat navigation of the Missouri River played in the upbuilding of the West. The business of the fur trade, the intercourse of government agents with the Indians, the campaigns of the army throughout the valley and the wild rush of gold-seekers to the mountains, all depended, in greater or less degree, upon the Missouri River as a line of transportation. No other river in this country has a record to compare with it.

The fine large paper edition, printed on handmade paper.

Of the importance of Dr. Coues' editorial work on the above volume it is needless to speak. No other series contains such a mass of carefully digested material relating to the early history of the West. Since their appearance they have been quoted and referred to by other writers times without number, and always will be; and no library on the subject can be considered anything like complete without them.

To describe it as "portrait missing" is hardly correct from the fact that the portrait was only issued in a small portion of the edition, and was probably engraved as an after-thought and added to the unsold copies. It is in the original binding, and there is no evidence of the portrait ever having been included.

Very fine copy of the original and only complete edition, which is rare in perfect condition with all the plates.

The English translator, with an assurance which is perfectly satire proof, not only abridges the work, but reconstructs and distorts it, and then calls upon us to admire his dexterity in subverting the labor and plan of the author. The work teems with facts and particulars relating to the Natchez and other tribes of Louisiana.

Le Page du Pratz resided in Louisiana fifteen years, and it is from his relation that most of the details of the life of the Natchez and other Mississippi tribes have been derived. Later historians have largely availed themselves of his materials. It is difficult to procure his work complete in all the plates and maps, which should number forty-two.

As the commissioner appointed by Bonaparte to represent France in the preliminary negotiations with the United States, Barbé-Marbois was well qualified to be the historian of the event; and his book has proved a general source of information about it. The vividness of its style quickens the usual tedium of diplomatic negotiations into a real dramatic interest, which culminates in the cession as a climax rather than as a result.

Of this valuable series little need be said. Its scarcity is extreme, particularly certain volumes. The portraits and illustrations are of great interest, and in many instances cannot be duplicated. Many biographies of distinguished men; genealogies of American families; transcriptions of church, town, county and court records; historical memoranda; old account books; ancient private journals; old letters; marriages and deaths; notes and queries, etc., are here found. This set of books, together with Savage's Genealogical Dictionary, may be looked upon as the two sources of genealogical data in America.

Very rare. This is the forerunner of the New England Historic-Genealogical Register, into which publication it was merged. The Editor, having been appointed Editor of a work to be published in Boston, entitled "The New England Historical and Genealogical Register," has made provision that subscribers to the Repository will receive the first two numbers of the Register in lieu of the last two numbers that were to have been printed of the Repository, etc.

Probably the best work for tracing the genealogies of early New York families. The set is now complete and includes the Letters of Administration and unrecorded wills. The volumes are not sold, but only supplied to the shareholders of the N. Y. Hist. Society Publication Fund. I can supply some separate volumes to complete sets.
